

## Publishing your work on Tableau Server

### Step 1 - Publishing your work to Tableau Online:

- For Online, we have quick connect option.
- For Server, we need server name or
- What credentials you will enter depends on the method of user authentication by your organization

You can publish your workbook Tableau Server or Online by Publishing Workbook from the

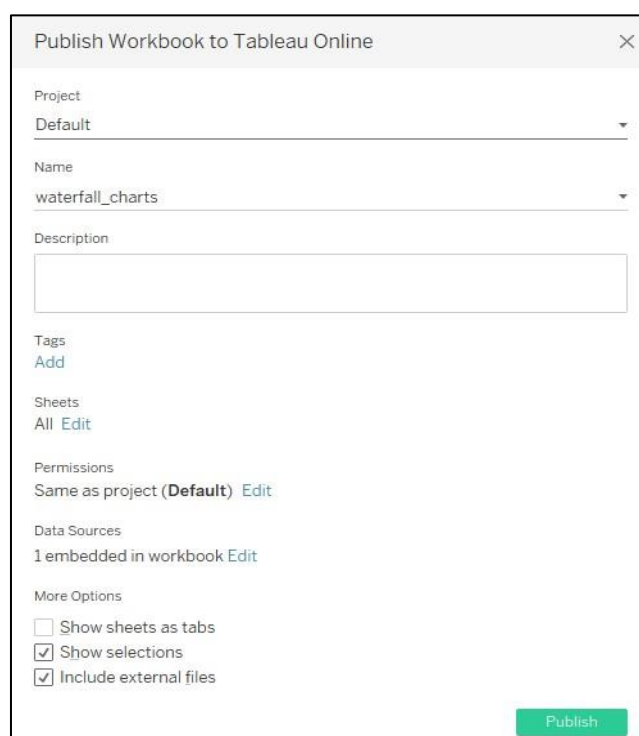

## Step 2 – Sign in to Tableau Online:

The screenshot shows a web browser window titled "Sign in to https://online.tableau.com". The page features the Tableau logo at the top, followed by the heading "Sign in to Tableau Online". Below this, there are two input fields: the first contains the email address "atul@edureka.co", and the second is a password field with masked characters. To the left of the password field is a checkbox labeled "Remember me", and to the right is a link labeled "Forgot password". A large blue button with the text "Sign In" and a right-pointing arrow is positioned below the input fields. At the bottom of the page, there is a copyright notice: "© 2003-2017 Tableau Software. All Rights Reserved".

## Step 3 - Fill in your credentials to publish your work to Tableau Online:

The screenshot displays a dialog box titled "Publish Workbook to Tableau Online". It contains several configuration options: a "Project" dropdown menu set to "Default", a "Name" dropdown menu set to "waterfall\_charts", and a "Description" text area. Below these are sections for "Tags" (with an "Add" link), "Sheets" (with "All" and "Edit" links), "Permissions" (set to "Same as project (Default)" with an "Edit" link), and "Data Sources" (showing "1 embedded in workbook" with an "Edit" link). A "More Options" section includes three checkboxes: "Show sheets as tabs" (unchecked), "Show selections" (checked), and "Include external files" (checked). A green "Publish" button is located at the bottom right of the dialog box.
